How to Find Finger Size

To Get Correct Size from an Old Ring

If you have an old ring that fits your finger, place it over these circles till you find the one that is the exact size of ring inside. The number inside the circle denotes your finger size. If your ring is smaller than one circle and larger than the next, order one-half size between. For a wedding ring or hand ring order one-quarter size larger than this measure indicates.

To Get Finger Size

Wrap a narrow strip of paper aro around largest part of finger. paper off so the ends just meet. P it on scale above, so that one en slip just covers black line at poin the figure at the other end of sli your finger size. If end of slip hetween two numbers, order a h size larger than the smaller num For wedding or hand rings, order size larger than actual finger size.

Be sure to mention finger size when ordering rings

Cuff Buttons and Links

Add 2 cents postage for articles under $5.00; $5.00 and over, 3 cents.

Where articles are shown with initials we will engrave any letter without extra charge. Cuff buttons that are described simply as solid gold and not solid gold throughout have gold filled posts or connections.

The ends (the parts that show) are solid gold. The ones described as solid gold throughout are solid gold all through. Where described as solid gold fronts this means that they are high quality gold filled.

COMMUNITY PLATE

First Showing of the Grosvenor Pattern—Very Latest Design in Community Plate

GROSVENOR DINNER KNIFE | ADAM TEASPOON | PATRICIAN DINNER FORK

THE exquisite quality of Community Plate gives the hostess a feeling of surety. Patterns are delicately etched, graceful in design, and provide a lifetime of service at about one third the price of Sterling silver. We can furnish the Grosvenor, Patrician and Adam designs in chests containing a complete table service or in separate pieces. Illustrations below show different styles of engraving. We will engrave a single initial of either style without extra charge, on all Community Plate purchased from us. When ordering, please write plainly the letter you want engraved. If engraving is to match that on silverware you already have, please send us a sample. When ordering use the numbers in the column under the name of the pattern you have selected. We pay shipping charges on all Community Plate. See opposite page for pieces not listed below.

1847 ROGERS BROS.

This is the original and genuine 1847 Rogers Bros. Silverware—the same kind that has served most satisfactorily in millions of homes since it was first placed on sale 70 years ago. Every piece is triple plated with pure silver—with an extra layer of silver on parts exposed to most wear. The Old Colony and Ambassador teaspoons are engraved with Old English style initial—the Queen Anne with script style. We suggest these styles as being most appropriate for the different patterns, but will engrave the pattern you select with either style you prefer. Please state style and letter you want engraved. When ordering engraving to match that on silver you already have, be sure to send sample.

GENUINE ROGERS SILVERWARE

THIS reliable silverware is made by two of America's leading and most reputable manufacturers. Thoroughly dependable and will give you many years of satisfactory service. This is Sectional Plate—which means that in addition to the regular, heavy plating of silver, every piece has an extra layer of pure silver on the parts exposed to the most wear. The Webster Pattern is made by Simeon L. & Geo H. Rogers; the Lufbery and Ashland Patterns by Wm. Rogers. Webster and Lufbery teaspoons show script style initial; Ashland teaspoon Old English style. We will engrave any initial, script style for 3 cents per letter, or Old English style for 6 cents per letter. Solid handle knives and forks cannot be satisfactorily engraved.

WARD'S PANAMA TABLEWARE

Panama Ware is just the tableware for everyday use. Looks like Silver—wears far better, and costs much less. A tough, hard, solid metal throughout that will last a lifetime—it is even too hard to be engraved. Like silver, it takes a beautiful, bright polish.

The Music Master

THIS magnificent Player Piano is the result of many requests from customers for a massive player of this type.

In addition to the musical superiority typical of Windsor Pianos the case is one that will win the admiration of all who see it. Only the choicest figured veneer of the wood selected is used on this case. The massive round columns and pilasters are also veneered with figured wood.

The Music Master is built with an automatic tone sustaining device which can be thrown in or out of use by merely setting an indicator at the left of the music roll aperture. When desired the expression can be controlled by pressure on a convenient expression button.

Upright Pianos

The designs of our cases are unusually beautiful and their musical qualities will delight the most exacting taste. One very impressive thing about all Windsors is the superior tone quality. The volume, resonance, carrying power and all the sweet singing qualities are the result of our perfectly balanced scale.

The action in the Windsor is the latest repeating type, which insures a responsiveness to the touch found only in high grade instruments.

Each piano that we show in our catalog is the product of master craftsmen. Every detail that insures a pleasing tone and lasting satisfaction has been built into Windsor pianos, and we give a written guarantee for 25 years against all defects in workmanship or material.

Be sure to send for our new Piano Book in colors. It is free. Use coupon at bottom of page 422.

Player Pianos

The material and workmanship used in Windsor Players represent all that is best in player construction, mechanical perfection, and artistic design and finish.

The tubing is made of metal instead of rubber, used in many other makes. These metal tubings are connected from tracker to primary actions so that it is impossible to become loose.

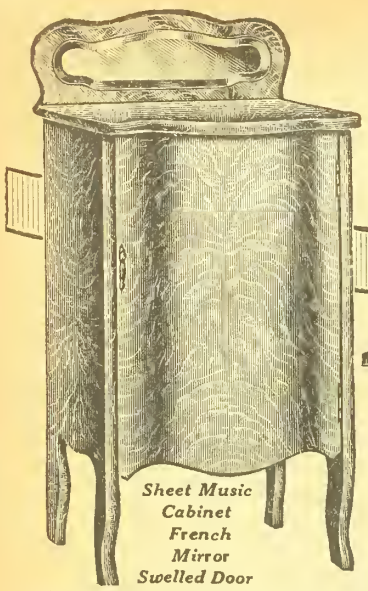
The keys are genuine ivory, and the sharps are ebony finish of the finest quality.

The tops are one piece, of the beautiful Empire type. The music desks are the latest automatic duet extension pattern. The fall boards fall back out of the way when the piano is in use.

The sounding board and ribs used in the manufacture of Windsor Player Pianos are made of carefully selected, thoroughly seasoned spruce, which is the most responsive wood for the purpose.

In every feature of construction and finish Windsor Players are as perfect as skilled workmen using high grade material can make them.

Guaranteed for 25 Years



Montgomery Ward & Company has been established for nearly a half century. Our business was built on the policy of fair dealing with our customers. "Satisfaction guaranteed or your money back," has been the attitude toward every customer since the founding of the business. The guarantee of satisfaction in purchasing a piano from us applies even more strongly—it is not merely for one, five or ten years, but covers a quarter of a century. Twenty-five years of musical happiness are guaranteed with every Windsor piano or player piano.

If the piano you purchase from us proves defective in material or workmanship within that length of time, we guarantee to put it in perfect condition at no further expense to you. This, however, does not include tuning or general repairs caused by natural wear and tear. Compare your Windsor with any other instrument that you know of for musical quality, beauty of design, responsiveness of action, or any other test the best piano should stand. Then if you are not convinced that a Windsor is the equal of any piano value to be obtained, send it back at our expense. The trial will have cost you nothing.

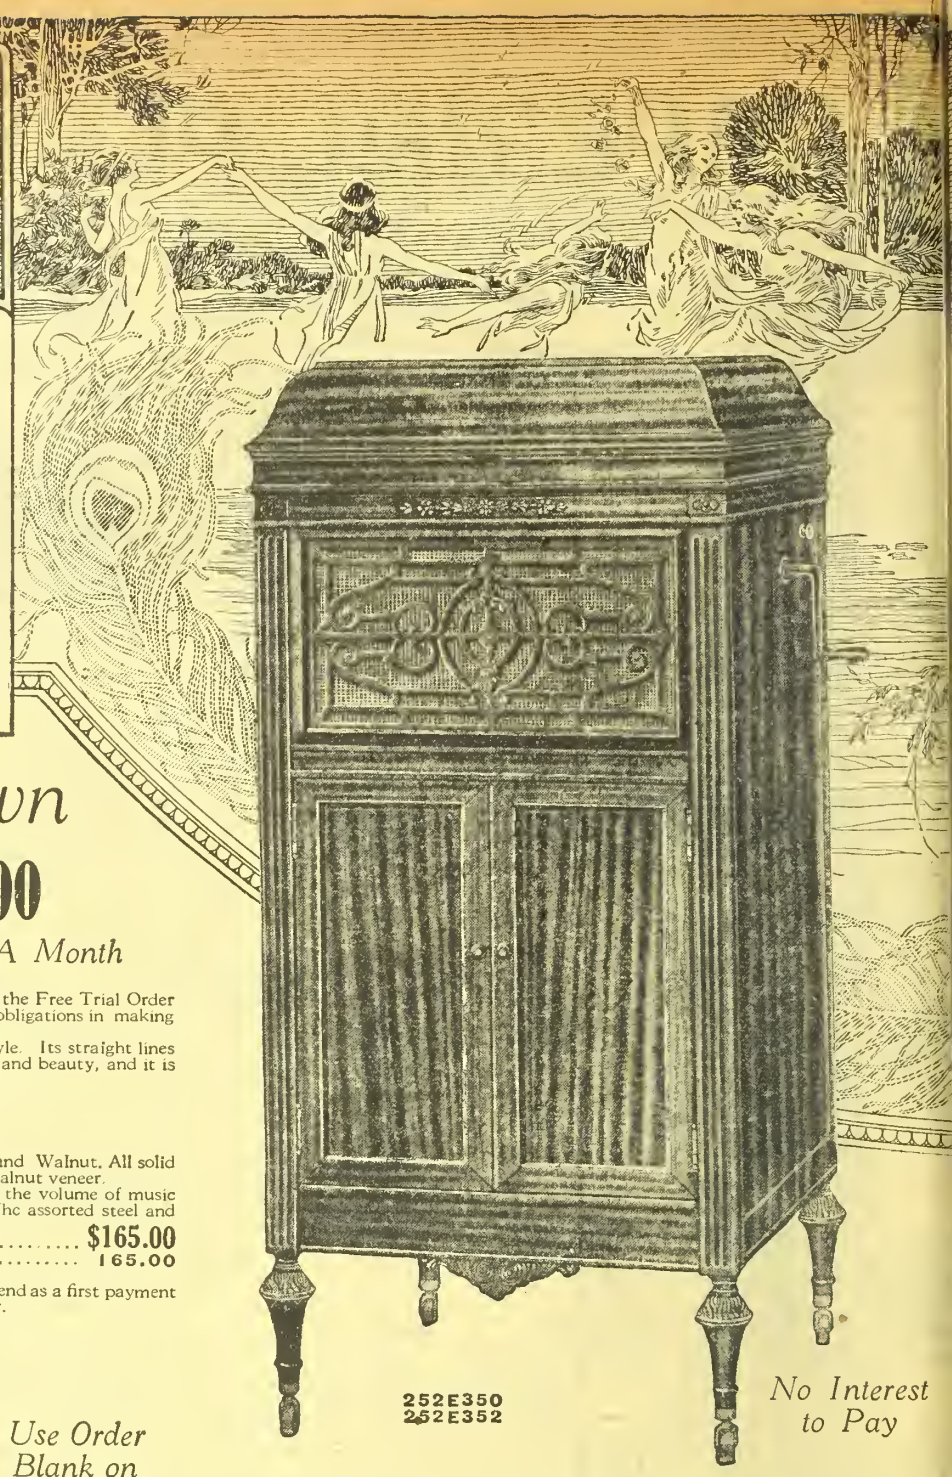
Ward's Cecilian

The Phonograph with a Cello Tone



A CECILIAN phonograph must meet exacting tests before leaving the factory. It is made according to rigid specifications which we lay down. The motor is absolutely noiseless and thoroughly reliable. An expression device enables you to shade any records to suit your fancy.

The wonderfully constructed tone chamber eliminates all mechanical harshness from the tone. Each phonograph is equipped with shelf for record albums. The use of veneered stock prevents any warping—insures a lifetime of service.

The Cecilian is artistically designed with particular thought for proportions and perfect tone rendering.

No details of the Cecilian have been neglected, and in no instance has the grade of material or workmanship been sacrificed to establish a low price or to hasten production.

The Cecilian is an instrument you will be proud to own. It will give you a lifetime of pleasure.

Reasons Why the Cecilian Has Become Nationally Known

The wood has been selected for its beautiful grain. It is thoroughly seasoned, thus p venting warping and insuring lasting durability.

The Cecilian motor has been improved and runs evenly and steadily, insuring accu tempo.

The tone arm has been perfected to develop a clear, rich tone, free from all harshness.

Like the case of a fine violin, the wood tone chamber of the Cecilian mellows and deep the tone of the instrument, faithfully reproducing the finest sound qualities, and develop the truthful rendering of the records as produced by the artists.

No Interest to Pay

The quality of a phonograph can no longer be judged by the selling price. With the great wealth of mechanical and scientific ability of the present day, quality can be produced at a very low price.

The Cecilian has every desirable feature which the finest phonograph should have. This Cecilian is a phonograph low in price, yet we have sacrificed nothing in musical quality. The workmanship, materials, and mechanical equipment are the same high standard used in the more expensive models.

CONSOLE phonographs have been enjoying an ever increasing demand, but the prices have been so far out of reach for this style of instrument that Montgomery Ward & Co. have built a large quantity of this style to effect the very lowest possible cost. Console phonographs have been selling from $200 to $500, but we offer this artistically designed Cecilian Console at only $125.00.

Unlike any other phonograph made, this has the permanent table top feature which is the true characteristic of the Console, and gives you a console table. Note the small cut of the interior of the phonograph on one side and the music album racks on the other.

By simply opening the door the record can be easily placed on the phonograph. The tone is wonderfully clear and sweet with large volume, rendering every record with the true expression of the artist.

Easy Payment Plan

You pay nothing for any Cecilian until you have tried it fifteen days. Then if you decide to keep it, the amount is paid in small monthly payments. If the Cecilian Phonographs were not right in every way, we could not offer them on this easy payment plan. Our Easy Payment Plan is in itself a guarantee of Cecilian quality.

All the instruments, mandolins, guitars ukuleles, banjos, and Hawaiian guitars shown on this and opposite page are easy to learn to play. The sweet music enjoyed many evenings at home. They are popular, too, as aids to entertainments of many kinds. Mandolin and guitar clubs are great fun and provide public entertainment. Form one in your neighborhood.

With each instrument we send a certificate from the National Academy of Music at Chicago. This certificate enables the customer to secure a course of 52 lessons by mail at very greatly reduced rates.

Hawaiian Guitar and Ukuleles

The Hawaiian Guitar

The music of the Hawaiian steel guitar is produced by means of a steel bar held in the left hand and pressed down over the strings at the desired fret. By sliding and oscillating this steel the sweet Hawaiian music is produced. By removing a nut the Hawaiian guitar can be played in regular style.

Mahogany body, grained finish. Top, quartered spruce. Back and sides of birch. Edge of top and sound-hole are inlaid with colored wood and bound with white celluloid. The neck is finished in dark mahogany. Ebonized fingerboard filled with brass frets and pearl position dots and bound with white celluloid. Metal bridge, patented removable nut. Instruction book and Hawaiian Guitar Steel. Also set of picks. Shipping weight, 17 pounds.

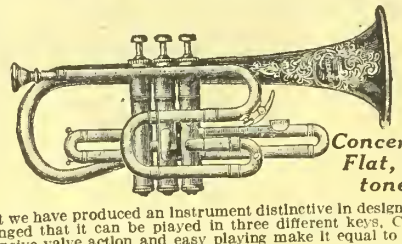
All Concertone instruments, except the alto, are fitted with the proper slides or tubes so that each instrument can be used both in bands and orchestras.



American made band instruments, although usually more expensive than the imported article, are more accurate in scale, richer in tone, and lighter, more graceful in design.

Valves—Improved light piston type with frictionless copper-bronze pistons, strong but light in weight, giving a light, easy valve motion.

Joints—Reinforced.

Slides—Tight fitting. Do not leak air, or water. The "A" quick change slides are conveniently located and have guide rods to keep slide in perfect position.

Water Keys—Located on lower joint of mouthpiece pipe, which means instant and complete drainage. Note: It takes about 12 days longer to fill orders for silver-plated instruments. We plate your instrument after we receive your order, to assure your getting it fresh and bright.

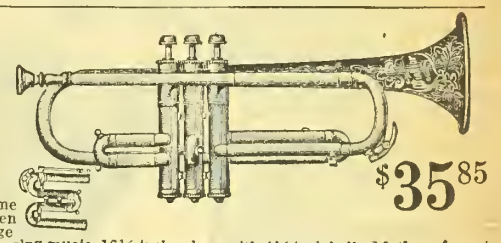
Concertone and Windsor Band Instruments Shipped from Factory near Chicago

Features of the Windsor Band Instruments

The cornets and trumpets are of the long models—the latest. They possess the one-pipe mouthpiece, doing away with the old-fashioned shank. The "Quick Change to A" is a feature which is strictly new and enables the orchestra player to make the change instantly by drawing the slide as per the guide rod, already adjusted for such change. The valve springs are encased and operate on spring seats which give the instrument a perfect and very light action free from the usual annoying sticking of a valve when in action. These features all go to make up as fine an instrument as can be desired by the most exacting performer. Our prices are most attractive.



$30.85

For Warmth and Cheer, the Worst Days of Winter

The Sterling Windsor

BLIZZARDS do not interfere with the ordinary household routine of the family which has a **Sterling Windsor** hot water eating plant. All rooms are equally warm. The heat of the fire is istributed through the house by hot water, which circulates lowly but constantly through pipes and radiators. There is but ne fire to consume fuel to heat the entire house—but one fire to end, yet even in the coldest weather it is not necessary to close ny slightly used room to conserve heat.

The **Sterling Windsor** hot water heating plant is high in the heart f each member of the family. There is but one heating fire for ather to tend; the boys find cheery warmth after their outdoor play n the coldest weather of winter,, and baby's bath is comfortable s ever.

But it is mother who is happiest at having the **Sterling Windsor,** ecause it is one of her chief aids. She does not have the incon- enience of keeping house in one or two rooms when blizzards drive he family to places near the fire. She does not see her living room ugs or carpets dirtied by the carrying of coal and ashes. There is o sooty stove pipe in the front of the house. Her curtains hang hrough the winter without attention until spring housecleaning brings them down. The muss and fuss of taking down heating stoves each spring and putting them back up in the fall is eliminated. It saves space, saves steps, saves dirt. That is why so many women say, "I couldn't keep house without a **Sterling Windsor.**"

The **Sterling Windsor** hot water heating system is one of the most modern methods of home heating.

The boiler may be p'aced in the cellar, but it is primarily designed for homes which have no cellars. In such homes it may be placed in any room, preferably in the kitchen. It will operate as well from one place as from the other. It is easily installed in any home, old or new, by any man handy with tools. Full instructions which cover even the smallest detail of installation are furnished with each plant. The tools necessary for fitting of pipe are sold at half price with the **Sterling Windsor.**

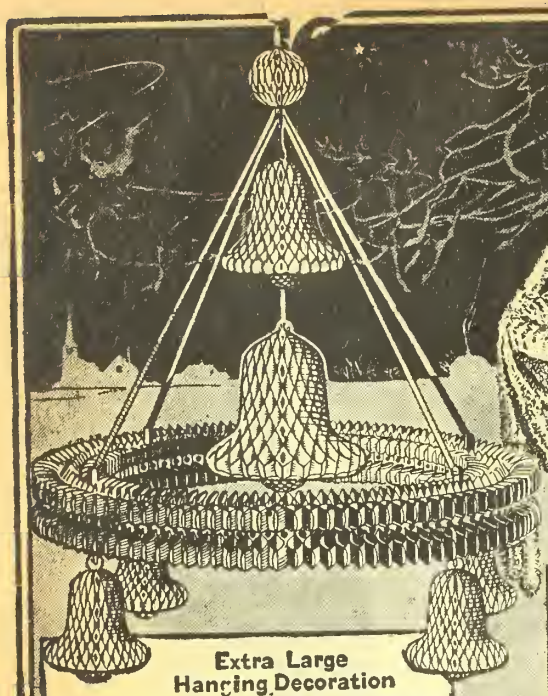
The cleanliness, the simplicity, the healthfulness, and the touch of the modern which the **Sterling Windsor** hot water heating plant brings to any home add value to that home many times the price of the plant.

Page 825 Tells How the Sterling Windsor May Be Had on Easy Monthly Payments

All detailed information about the **Sterling Windsor** Hot Water Heating System is on age 825 of this catalog where prices, sizes and other information are given. Other ystems also are described on that page.

The **Sterling Windsor** delivers its heat over the entire house. It makes huddling to the stove a thing of the past.

No frozen pumps or chill kitchens on winter mornings when the house is properly heated by a **Sterling Windsor.**



Read This Letter

We have the Sterling Windsor Heater installed and are very well pleased with it. It is heating the house, keeping a more even temperature and using less fuel than I did with stoves. I think it is the ideal heating system for small buildings where there are no basements.

To avoid disappointing the children order their toys early

ORDER EARLY

AS SOON as the children have whispered their secrets to you, telling what toys they expect Saint Nick to bring, we advise that you send your order at once.

While we have huge stocks of each article illustrated, yet they disappear rapidly when the Holiday Season draws near. We know the disappointment that may touch the heart of a child should its expectations be not fulfilled. Therefore, if you must order late, kindly indicate the child's first, second and third choice, should the toy that is really preferred be out of stock.

Your Own Initial Placed on Each Piece Free

You can now have the very latest mounted initials that add that individuality to your set.

Old English

Just mention the initial. This letter will be mounted and a dainty shade tint outline placed on each piece or pieces you select. Manicure pieces and picture frames are not initialed on account of the narrow ivory surface.

These artistic initials make them a more thoughtful gift for any occasion — **Birthday, Wedding, Christmas, Anniversary,** etc. A gift item the year around.

Mention the letter you desire, also tell us the color tint background (blue, buff or green only) you prefer.

How to Measure

Trusses are carried in even sizes, 30 to 44-inch measurement for Adults. Children's sizes, 14 to 28-inch measurement. Sizes larger at an additional cost.

Give full circumference of body in line with rupture or about 2 inches below the top of the hip bone—avoid the fullness of the abdomen. The tape measure should lay straight across the back at the waist-line and then in a downward path to the place of rupture. If it is your first truss consult a physician before ordering.

Trusses bought of us fit snugly; follow every movement of the body.

IMPORTANT

Do not order a truss for the first time until you have first consulted a physician and he has prescribed exactly the style and size of truss you should wear.

Under no conditions buy a truss for the first time or any renewals, without first consulting your physician. A child is constantly growing and changing in shape and therefore must have either a new size or style of truss every time it is necessary to purchase a new one.

Before Ordering Read This

How To Measure

Measurements for Elastic Stockings should be taken immediately after rising in the morning when the limb is least swollen. Follow carefully the instructions given for these particular stockings. Be accurate in the length. Do not measure beyond the location on the limb as shown in the picture. Be sure to give the circumference. If these measurements are given exactly the stocking will be in the right proportion—upon which the efficiency of it largely depends. The tape measure should be applied closely to the skin so as to give snug measurement—it should not be drawn too tight. The measurements of the length are taken on the inside of the limb.

Only the best of materials are used in the manufacture of these stockings. They are woven from covered rubber threads interwoven with either silk or the highest grade cotton as ordered. These stockings will prove very durable, it depends largely however on the care given them. Elastic Stockings should never be exposed to anything greasy, such as ointments or liniments as this will destroy the rubber. They may be washed in luke-warm suds using castile soap. Thoroughly rinse and place the stockings between the folds of a dry towel and hang in a moderately warm room.

These garments are made to order and require from 7 to 10 days time to make and cannot be returned when made according to measurements. Woven Elastic Garments are especially desirable in the treatment of varicose veins, when they are used for protection to prevent rupture of the veins and ulceration which might follow. Frequently used to protect broken limbs and to help the bones to knit. Prices quoted for leggings and knee caps are for one only—not a pair.

Ventilated Mesh Cloth Shoulder Brace

$1.87

53 E 6183—
Price.. $1.87

We recommend this as our best constructed, most sanitary and a very comfortable garment.

Everyone should breath deeply. We can live days without food but only a very short time without air. This brace keeps the shoulders well back and expands the lungs. It offsets the bad effects of stooping. Corrects round shoulders and keeps the body erect. Cut on a different pattern than most braces, broad across the back and supplied with adjustable shoulder straps. Shoulder pieces comfortably padded. No strain or discomfort. Lacing is self adjusting. Shipping weight, 1 pound. Give chest measure when ordering.

Radium Shoulder Braces

Men's Brace.
53 E 6117—
Price.. $1.85
Women's Brace
53 E 6118—
Price $1.85
Shipping weight, ½ pound.

A splendid adjuster of stooped shoulders. For men, women and children. The curved back of the Radium Brace gently presses on the shoulder blades, and forces them back into natural position. This movement is helped by the padded shoulder straps, which go under the arm and around the shoulder. This action, working on both chest and back, produces an erect bearing and natural easy position. Sizes 24 to 42 inches. Give chest measure when ordering.

Our Leader Shoulder Brace

For Men or Women

53 E 6115 $1.47
Price.....

Shipping weight, ½ pound.

The Leader Shoulder Brace slowly but surely expands the chest, squares back and shoulders, takes the tired, listless droop out of the whole body. Made of fine drill, has bound edges and strong cords. Be sure to give chest measure when ordering.

Dr. Gray's Spinal Shoulder Braces

Men's Brace.
53 E 6103—
Price.... $2.35
Women's Brace.
53 E 6106—
Price.... $1.75
Shipping weight, ¾ pound.

This brace supports and strengthens the back, gently draws the shoulders back, so as to expand the chest and put the entire body in an erect, graceful position. Corrects gradually without discomfort.

Made of a special grade gray cloth with covered leather tipped metal stays of the best tempered steel. Non-elastic web belt with elastic web shoulder straps. Padded arm pieces. Entire brace shaped to conform to the body curves. Brace is held in position perfectly by regular suspender ends. Made in white color with laced back for women.

Give measurement around body close up under the arms and the length wanted from "A" to "B".

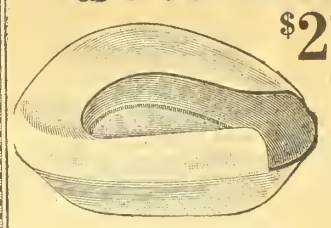
Children's and Adults Shoulder Brace

75c

53 E 6181—
Made of Coutil.
Price.....75c

Made in three sizes. Size 1 for children. Size 2 for youths and misses. Size 3 for adults.

Shipping weight, about 1 pound.



Be sure to mention size wanted when ordering. Scientifically designed. Instantly adjustable. Comfortable to wear.

An ideal corrective for round shoulders. By gently forcing the shoulders back and the chest out, induces deep breathing and develops the chest. Can be worn without discomfort and is invaluable for producing a straight, erect posture.

Strongly made jean and coutil, well boned.

Necessary Veterinary Instruments, Tonics and Remedies

$2.36 — 25 lbs. Pilgrim Medicated Salt

For Hogs, Sheep, Horses, Cattle

Profits in stock raising depend on the condition and health of your stock. It is far better and cheaper to keep them in health than to cure them after they are sick and run down. Get them into first class condition and keep them there by feeding them our Pilgrim Medicated Salt.

The ingredients supply those elements generally lacking in the feed and so very necessary for the health and growth of animals.

Pilgrim Medicated Salt is composed of the following ingredients: Sodium Chloride, Copperas, Charcoal, Gentian, Fenugreek, Nux Vomica, Worm Seed and Areca Nuts.

Shipping weight, 1 pound.

Pilgrim's Lice Powder

53 E 7106— 1 pound.....21c
53 E 7108—3 pounds...47c

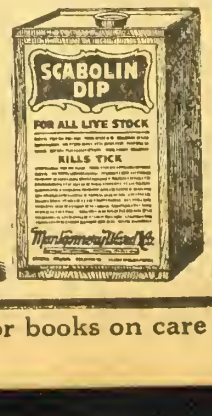
The chemicals in this powder kill all the lice or cause them to leave, but do not injure the fowl or animal on which it is used. Can be sprinkled right on the poultry in poultry houses, or the nests

Scabolin Dip

Not Mailable

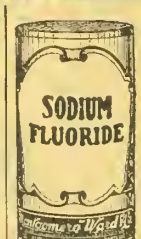
A Dip and Disinfectant for All Live Stock

Scabolin Dip and Disinfectant is an inexpensive, healing, antiseptic and non-irritating mixture of coal tar creosotes especially recommended for making a dipping solution for horses, cattle, sheep and hogs



One gallon of Scabolin Dip in seventy-three (73) gallons of water makes a solution of sufficient strength to be used in the dipping tank or sprayed with a hand sprayer.

Owing to its strong germicidal powers Scabolin Dip, when sprayed in the stables, hog pens, chicken houses, barn yards, runways, etc., has proven a great help in checking epidemics among stock. It is a noticeable fact that on many farms where a good dip and disinfectant had been used, the losses from contagious diseases were very small.



This Dip cannot be used with Alkali Water.

Facts About Freight and Express Costs

How to Figure Freight Rates

'ind the classification of the article you have in mind. he classification below does not show the article, take classification for something similar. Multiply the rate hundred pounds given below by the weight of the art- which is given in the description in our catalogs.

'or example—suppose you live in La Crosse, Wis., and at to find the freight charges on a Plow or a Corn nter or a Stove. This Merchandise takes third class es from Chicago to western points and the third class e to La Crosse is 55n per 100 lbs. If the merchandise ghs 650 pounds, the charges would be 6½ times 55c or 57. If your town is not shown in the rate table below, re from the town nearest to your station that is shown. here is no agent at your station the freight charges st be prepaid; otherwise you pay the charges when the ds arrive.

How We Save You Freight Charges

We pack all merchandise so the shipment will cost you the lowest possible amount for transportation charges, but we always consider first the safety of the merchandise and your satisfaction. Every article is packed to reach you in good condition.

100-Pound Shipments

The minimum freight charge of the transportation companies is based on 100 pounds. It is therefore to your advantage to include enough items to build your order up to this weight because you pay freight for 100 pounds, whether your shipment weighs 10 or 100 pounds. Over 100 pounds you pay freight for only what you get. Thus if 100 pounds cost you 60c for freight, 110 pounds would cost you only 66c.

When several articles are ordered of different classifications, and the total weight is 100 lbs. or less, the freight rate per 100 pounds is based on the highest classed article.

The rates shown below are those in effect at the time this catalog was printed, and are subject to change.

Parcel Post and Express Rates

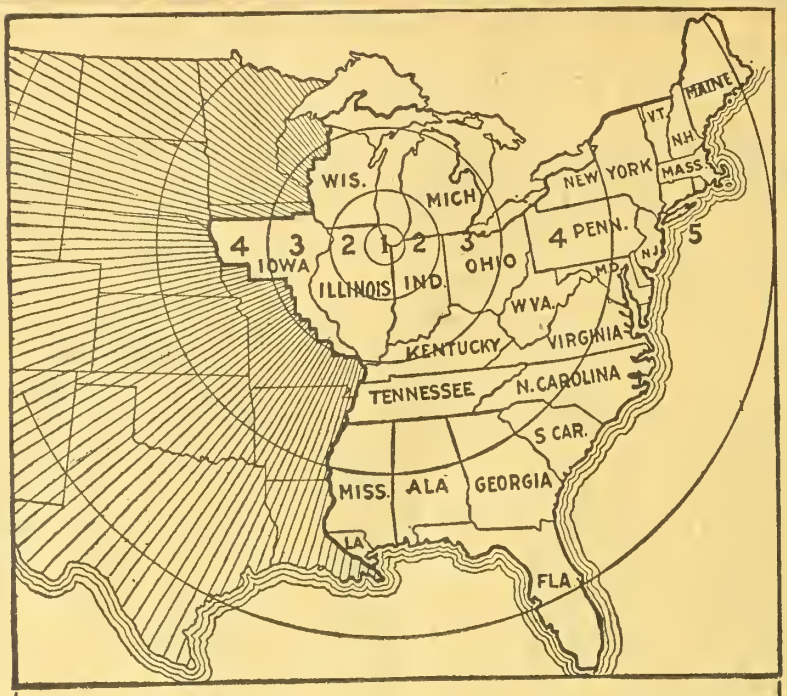
Merchandise by Mail

Merchandise shipped by mail takes the parcel post rates.

The map on this page will show you what zone your postoffice is in from Chicago. If in doubt ask your postmaster or carrier.

To find out what the postage charges will be on your order, compare the total shipping weight (the catalog description of each item gives the weight) with this table, which gives the charges for packages of various weights to the different parcel post zones.

The zone rates do not apply to packages weighing four ounces or less, which are carried for one cent an ounce regardless of distance.



Clothing, Dress Goods, Shoes. The postage to be added to your order on all items of wearing apparel is shown opposite the price of the article.

Books weighing eight ounces or less may be mailed for one-half cent an ounce. Books weighing over eight ounces are charged for by the pound, the rate per pound varying according to the zone to which the package must be carried.

Liquids may be shipped by parcel post in single glass bottles not exceeding sixteen ounces and in bottles of four ounces or less each when the total weight does not exceed twenty-four ounces. The weight limit for liquids in sealed metal containers is the same as for other parcel post matter.

Unmailable Articles. Some few articles in the Drug Line and explosive or poisonous articles are not mailable—cannot be sent by Parcel Post. These articles are so marked in the descriptions.

How to Tell How Much to Include for Postage

Locate the State in which you live on above map. The figure inside the circle passing through the portion of the state in which your town is located will indicate your parcel post zone.

Size and Weight Limits

Packages weighing up to seven pounds each may be mailed to any post office in zones one, two and three. Packages which do not exceed fifty pounds in weight may be mailed to all zones.

Packages having a combined length and girth of more than seven feet may not be mailed by parcel post. Measurement should be made by running a tape around the package the short way and to this adding the length of the long side.

Revenue Tax

In addition to the rates shown here the war revenue bill requires a tax of one cent for each twenty-five cents of postage or fraction thereof on packages bearing twenty-five cents or more postage.

Scale of First Class Express Rates

This is an official scale of Graduated Charges used by all Express Companies.

These rates are those in effect when this Catalog was printed. They are subject to change.

In the column below under your express rate for one hundred pounds will be found the amount you will have to pay on express shipments from one to fifty pounds. If the exact weight of your goods or the rate to your station is not shown, refer to the next higher rate or weight and the result will be within a few cents of the correct charge. The charge on Food Stuffs, however, is one-fourth less than the charge on other merchandise.

Take the weight of your order and figure charges according to this scale. If the shipment consists of Food Stuffs three-quarters of the result will be the correct charge.

How to Figure Express Charges

Express is a quick and safe method of shipping. The express agent your town will explain his company's service, and will tell you the correct charges on any shipment.

For your convenience we give on this page a scale by which you can figure the charges on small express packages from one to fifty pounds. For instance—by referring to the table on page 505 under heading "Table Showing Freight and Express Rates," you will find that the Express rate per hundred pounds to St. Cloud, Minn., is $3.67. If your order weighs 10 lbs. you will see by this scale that 10 lbs. at the rate of $3.67 per hundred pounds will cost 68c. If the rate per hundred pounds is $4.36, and your package weighs 15 pounds, the express charge would be 95c. These rates do not apply to Groceries, however. The express charge on Groceries is one-fourth less than the charge on other merchandise.

Helping You to Greater Values—Larger Savings

Everything for the farm, home and family is shown in this book. The condensed index on this page and the completely itemized index which follows, are your guides to larger savings and better and bigger values.

It will be easy for you to find the things you wish to buy. In nearly every case the article you seek will be found where you look for it first. House Dresses will be found under the listing, "Dresses." Hand Saws appear under "Saws."

Merchandise is listed under the names most familiar to you. Ward's index is practical and easy to use. You will save time by using it freely. Turn to next page.

Information to Help You in Ordering

We Ship as You Direct

Tell how you want your orders shipped -by express, parcel post, or by freight. If you are in doubt about the best way o have your orders sent, let us decide. We will ship it in the most economical ay. All transportation charges are to e paid by the customer except for articles uoted prepaid in the catalog.

Parcel Post Shipments

When you order goods sent by parcel ost be sure to send enough money to pay ostage in addition to the cost of the oods. If you send more than is needed, e will send the difference back to you. age 506 tells how to figure the amount postage on any item for which postage not stated.

Unmailable Articles

A few articles in the drug line, and inmmable, explosive or poisonous articles, e not mailable and can not be sent by arcel post. These articles are so marked the descriptions. Packages having a mbined length and girth of more than ven feet cannot be mailed by parcel ost.

Economy in 100-pound Freight Shipments

Please bear in mind when ordering merchandise shipped by freight that there will be a greater saving if you build your order up to 100 pounds or more.

Information about freight rates and classifications will be found on page 505.

Information about express shipments and rates is on pages 505 and 506.

Freight Delivery Now is Prompt

We feel we can now promise our customers much quicker delivery on freight orders than has been possible during the past three or four years. The railroads are able now to handle freight quickly.

We Guarantee Safe Delivery

We guarantee safe delivery of your order. If any merchandise is lost or damaged in transit, we make good with you first, and make claim on transportation company later. Always examine a freight or an express shipment carefully, before removing it from the depot, and if damaged in any way, have the agent mark the extent of the damage on the bill, and send this bill to us with your letter. It will help us in making adjustment with the railroad or express company.

Please Describe Repairs in Detail

When ordering repair parts please give make, model, and year you bought the implement or machine. If there is a casting number on the worn or broken part give us that also.

Please Order Under One Name Only

In order to prevent mistakes, and that our records may be correct, we urge that the different members of your family order under one name, preferably the name of the head of the family.

Satisfaction or Your Money Back

C. O. D. shipments are made when you request them, but such orders must be accompanied by a payment of one-fourth the total amount of the order. However, it saves you needless expense to send full payment as all goods are sold under Ward's positive guarantee of "Satisfaction Guaranteed or Your Money back."

Our Prices Include War Tax

The tax on those articles listed in this catalog which are taxable under sections 904 and 907 of the Revenue act of 1918, is included in price of articles as quoted.

WHEN you buy clothing from Ward's, we want you to be satisfied with the style and the fit of each garment, therefore be sure to give us accurate measurements and body sizes. Do not guess your measurements, but have someone take them for you, following the instructions on page 523, at the end of this index. Additional concise instructions for measuring women's garments are on page 5, and for men's on page 304.

WARD'S customers like our service because the prices are low for a dependable quality of merchandise. Rev. G. R. Mente, Ph. D., New Washington, Ohio, writes as follows: "I find that the firm is always ready to stand back of their guarantee as to fair dealings and money returned if for any reason I am not satisfied with the purchase. I am speaking a kind word for the firm whenever the opportunity presents itself."

"EVERYTHING for the farm, home and family" is a principle of merchandising which this store has sincerely lived up to during its more than forty-nine years of square-dealing business history. Keeping step with the growing needs of our large and rapidly expanding trade has been our first consideration, and to-day, Ward's is filled with the spirit of going ahead so that you may be served more quickly and with better satisfaction than ever before.

For School Children

EVERYTHING for your boy or girl going to school this Fall will be found in this catalogue. Serviceable clothing and school outfits at attractive prices.

- Boys' Suits and Caps
- Girls' Dresses, Middies and Hats
- Stockings and Shoes
- Underwear and Handkerchiefs
- Gloves and Mittens
- Coats
- Aprons
- Books
- Maps
- Dictionaries
- Pencils and Pens
- Ink and Tablets
- Book Bags

It is a good plan to use one of the order blanks in the back of the book as a "want list." That is, jot down on it, from day to day, the things you are going to need in the near future. Then when the time comes for you to send in your order, you have a memorandum of your needs and have forgotten nothing.

THE FOLLOWING IS PRINTED TO COMPLY WITH THE REVENUE ACT OF 1918
THE PRICES IN THE CATALOG INCLUDE THE TAX, SO NO EXTRA REMITTANCE IS REQUIRED

"The price on articles taxable under Sections 904 and 907 of the Act are as follows:
Section 904 (a) That on and after May 1, 1919, there shall be levied, assessed, collected, and paid a tax equivalent to 10 per centum of so much of the amount paid for any of the following articles as is in excess of the price hereinafter specified as to each such article, when such article is sold by or for a dealer or his estate on or after such date for consumption or use—
(1) Carpets and rugs, including fiber, except imported and American rugs made principally of wool, on the amount in excess of $5 00 per square yard; (2) Picture frames, on the amount in excess of $10.00 each; (3) Trunks, on the amount in excess of $50.00 each; (4) Valises, traveling bags, suit cases, hat boxes used by travelers, and fitted toilet cases, on the amount in excess of $25 00 each; (5) Purses, pocketbooks, shopping and hand bags, on the amount in excess of $7.50 each; (6) Portable lighting fixtures, including lamps of all kinds and lamp shades, on the amount in excess of $1 each; (7) Umbrellas, parasols, sun shades, on the amount in excess of $4.00 each; (8) Fans, on the amount in excess of $15 each; (9) House or smoking coats or jackets, and bath or lounging robes, on the amount in excess of $25 00 each; (10) Men's waistcoats, sold separately from suits, on the amount in excess of $5 each; (11) Women's and misses' hats, bonnets, and hoods on the amount in excess of $15 each; (12) Men's and boys' hats, on the amount in excess of $5 each; (13) Men's and boys' caps, on the amount in excess of $2 each; (14) Men's, women's, misses', and boys' neckties and neckwear, on the amount in excess of $2 each. (16) Men's and boys' silk stockings, or any person having a crippled or deformed foot or ankle, on the amount in excess of $10 per pair; (15) Men's and boys' hose, on the amount in excess of $1 per pair; (17) Women's and misses' silk stockings or hose, on the amount in excess of $2 per pair; (18) Men's shirts, on the amount in excess of $3 each; (19) Men's, misses' and boys' pajamas, night gowns, and underwear, on the amount in excess of $5 each; and (20) Kimonos, petticoats, and waists, on the amount in excess of $15 each.
Section 907 (a) That on and after May 1, 1919, there shall be levied, assessed, collected and paid (in lieu of the taxes imposed by sub-divisions (g) and (h) of section 600 of the Revenue Act of 1917) a tax of for each 25 cents or fraction thereof of the amount paid for any of the following articles when sold by or for a dealer or his estate on or after such date for consumption or use:
(1) Perfumes, essences, extracts, toilet waters, cosmetics, petroleum jellies, hair oils, pomades, hair dressings, hair restoratives, hair dyes, tooth and mouth washes, dentifrices, tooth pastes, aromatic toilet powders (other than soap powders), or any similar substance, article, or preparation by or for whatsoever name known or distinguished, any of the above which are used or applied or intended to be used plied for toilet purposes. (2) Pills, tablets, powders, tinctures, troches or lozenges, syrups, medicinal cordials or bitters, anodynes, tonics, plasters, liniments, salves, ointments, pastes, drops, waters (except taxed under section 628 of this Act), essences, spirits, oils, and other medicinal preparations, compounds or compositions (not including serums and anti-toxins), upon the amount paid for any of the above which the manufacturer or producer claims to have any private formula, secret, or occult art for making or preparing the same, or has or claims to have any exclusive right or title to the making or preparing thereof, or which are prepared, uttered, vended, or exposed for sale under any letters patent, or trade-mark, or which (if prepared by any formula, published or unpublished) are held out or recommended to the publie by the makers, vendors, or proprietors thereof as proprietary medicines or medicinal proprietary articles or preparations, or as remedies or specifics for any disease, diseases, or affection whatever of the human or animal body Provided, that the provisions of this section shall not apply to the sale of vaccines and bacterines which are not advertised to the general lay public, nor to the sale by a physician personal attendance upon a patient of medicinal preparations not so advertised. (b) The taxes imposed by this section shall be collected by whichever of the following methods the Commissioner may deem expedient: (1) by stamp affixed to such article by the vendor, the cost of which shall be reimbursed to the vendor by the purchaser."

ollow These Simple Measurement Instructions

ave all measurements for clothing taken for you. Do not try to measure yourself. Anyone can take measurements by following these instructions.

w to Measure for Women's, Misses' and Children's Clothing

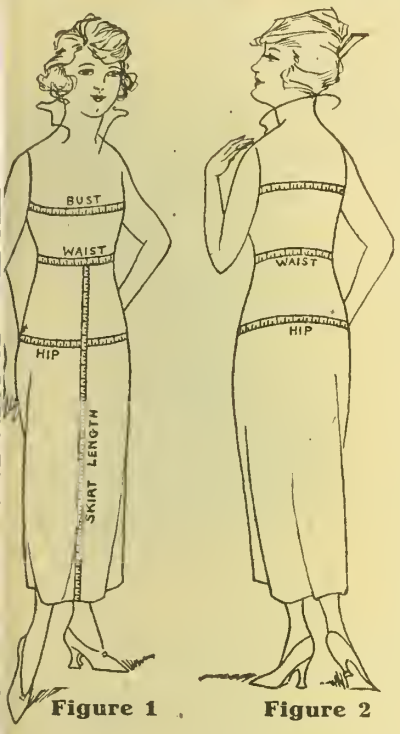

Figure 1

Figure 2

See that an accurate tape line which does not stretch is used and the measurements taken snugly but not too tight over a waist or skirt.

Make No Allowance Whatever For Fullness, We Do That

Bust Measure: Over a close-fitting waist place tape line entirely around the body well up under the arms, and have it meet across the fullest part of the bust. Do not take measurements too tight. Do not allow tape to slip down in back.

Waist Measure: For all skirts, measure over your skirt all around the smallest part of your waist to where tape measure meets in front.

Hip Measure: Place tape around fullest part of hips over your skirt 7 inches below your natural waistline. Do not allow tape measure to slip up or down. Do not take this measurement too tight.

Front Length of Skirt: Measure from your natural waistline in front down to whatever length is desired.

How to Measure for Corsets

Lace Corsets. Take your waist measure, tight over the corset, and subt two (2) inches. This allows for the lacing. Thus, if your waist sure over your corset is 25 inches, for a back lace corset, order size 23.

t Lace and Topless Corsets. Take your waist measure tight over your set and subtract one (1) inch. Thus, if your waist measure, over your set, is 25 inches, for a front lace or topless corset, order size 24.

How to Measure for Gloves

Draw your tape measure around over the knuckles (as shown in picture to the left) not too tight, and not including the thumb. To this measurement add ¼ inch for dress gloves and ½ inch for working gloves, which will be your correct size. Women's unlined Kid glove sizes: 5½, 5¾, 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8. Women's Silk, Fabric and lined glove sizes: 5½, 6, 6½, 7, 7½, 8, 8½. Men's Dress Glove sizes: 7, 7¼, 7½, 7¾, 8, 8¼, 8½, 8¾, 9, 9½, 10, 10½. Men's Work Glove sizes: 7¼, 8, 8½, 9, 9½, 10, 10½, 11. **Children's Gloves: Order by age. —Be sure to state if child is large or small for age.**

How We Make Sure That You Will Be Fully Pleased with Every Garment You Order at Ward's

Quality Garments

In the first place, we ask the best New York garment makers to submit to us models, literally thousands of them, from which to select the styles which finally go into our catalogs.

Our buyers and selectors spend weeks at our fashion headquarters in New York, in going over the best offerings in style, in attractive new materials, and unusual value for the price. Final orders are placed only after every piece of material has passed a thorough chemical analysis for quality and wear.

Nor do we stop with the first selection. At the factories the garments being made up are constantly watched by our buyers and inspectors to make sure that they come fully up to the standard of the original sample, or better.

When the finished garments reach our stores, each and every one is carefully gone over once more for even the smallest details of finish, fit, style and general workmanship. As a further check samples of these garments are regularly tried out on live models, just to make doubly sure that the style, the cut, the hang of the garment is exactly what you will like.

To make sure that the garment you order reaches you fresh and crisp and just as it came from the makers, it is carefully pressed and specially packed just before shipment. From first to last, no point is overlooked that will help insure your full, complete satisfaction.

How to Measure for Men's and Youths' Clothing

How to Take Raincoat or Overcoat Measurement

When taking measurements for raincoat or overcoat, place the tape measure around the body over vest close up under the arms and over shoulder blades in back. See figure 3 at right. Always have chest measure taken over your vest and always give height and weight.

Chest Measurement

See that tape measure is placed all around body over vest close up under arms and over the shoulder blades in back. See figure 3 at right. Measure over vest and always give height and weight.

Hold Tape as Shown in Figure 3

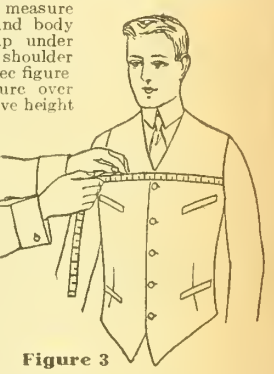

Figure 3

Sleeve measurement — From center seam in back over elbow to wrist. See small picture at left.

How to Measure for Hunting Clothing Shown on Pages 560 and 561

When measuring for a coat put tape around chest close up under arms over shirt. If chest is 40 inches, order a size 40 coat if you do not intend to wear more than an ordinary shirt under the hunting coat. If you wear additional clothing and your chest is 40 inches, order a size 42— See figure 4 on how to measure for pants, hearing in mind the necessity for allowing for additional clothing worn under the Hunting Clothing.

How to Order Hat or Cap

Measure your head as illustrated and send us either this measurement in inches or compare the number of inches your head measures with this scale of hat sizes and send us the hat size you wear.

Children's Hat Size, 6⅛ to 6¾
Boys' Hat Size, 6½ to 7
Men's Hat Size, 6¾ to 7¾

Hat Sizes	Measures Around Head Inches	Hat Sizes	Measures Around Head Inches
6	19	7	22⅛
6⅛	19⅜	7⅛	22½
6¼	19¾	7¼	22⅞
6⅜	20¼	7⅜	23¼
6½	20½	7½	23⅝
6⅝	20⅞	7⅝	24
6¾	21¼	7¾	24½
6⅞	21⅝		

How to Take Waist and Inseam Measurements for Trousers and Overalls

Waist—Put the tape measure all around your waist, just above the hip bones. See figure 4.

Inseam Measurement should be taken from close up in crotch down to the desired length as shown in picture figure 4.

When ordering trousers or overalls state waist and inseam, also height and weight.

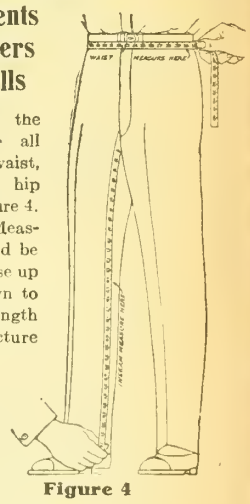

Figure 4

How to Measure for Rubbers

Send us, if possible, the exact numbers printed inside of the shoes to be fitted. Or place your shoe on a piece of paper and draw an outline from the shoe, mentioning whether it is a high or low heel. Be sure to mention this, as a high heel ruhber will not fit a low heel shoe, and a low heel ruhber will not stay on a high heel shoe. **Do not use the shoe size chart in finding rubber sizes.**

How to Obtain the Correct Size for Children's Bonnets

Measure head exactly as illustrated by placing tape measure on point on the neck just below the ear as shown, and then around face to same point on opposite side. Send the exact measurement in inches.

How to Measure for Finger Ring

Wrap a narrow strip of paper snugly around the largest part of finger. Cut paper off so the ends just meet. Place it on scale above, so that one end of slip just covers black line at Point A; the figure at the other end of slip is your finger size. If end of slip falls between two numbers, order a half-size larger than the smaller number. For wedding or band rings, order ½-size larger than actual finger size.

The Flaming Forest

By James Oliver Curwood
Author of the River's End and Valley of Silent Men

$1.87

Ready Aug. 25, 1921
The Best Romance Adventure Story of the Year

Curwood is the author of those famous northland novels, **The River's End** and **The Valley of Silent Men.** The Flaming Forest is an epic. It will carry you away by its swift action and vivid charm. Ask yourself why the most beautiful girl in the Northwest ished David Carrigan, shooting him down without mercy. Why she then turned all rness, binding his wound, going for help, sending him to her river cabin in the g arms of a mighty Indian. Why she coolly instructed this faithful Indian giant to destroy f he tried to escape and then—but learn the answer given in this thrilling story.

s an amazing picture of the strange northland—the land that Curwood knows as does her writer— the land where vast unpeopled distances still afford a million hiding places omance and mystery. It's the best romance-adventure story of the year.

autiful 4 color jacket and **illustrations by Walt Louderback,** cloth bound, size, 7⅝. Shipping weight, about 1½ pounds.

The Pride of Palomar

By Peter B. Kyne
Author of Kindred of the Dust

$1.87

Ready Oct. 1st, 1921
A Thrilling Novel for Red Blooded Americans

A man fights best for the thing he loves. And writes best. So Peter B. Kyne has put himself into every page of this mighty drama of his beloved California. No book since Uncle Tom's Cabin has come to stir the soul of America as has this wonderful novel of Mr. Kyne's. It's a story which has to do with the days of the old ranchos, the days of guitars in the moonlight, the days of beautiful Spanish women, and men gallant and brave. Also, it vitally has to do with the California of to-day, and with an urgent California question so far-reaching that it affects every man, woman, and child in the United States.

The Pride of Palomar is the story of "Don Mike" Farrel, in whose veins run the hot blood of Spain and the fighting blood of old Ireland. He is the "last of the Dons", and comes back from the Great War to find that he has been declared killed in action. His beloved Rancho Palomar is in the hands of a rich eastern aristocrat who plans to make it the site of a gigantic Japanese colonization scheme.

The odds against "Don Mike" are terrific—slim are his chances. But he wins, and how he does it, with the aid of Kay Parker, one of the bravest and loveliest of girls, makes one of the finest stories you have ever read.

Gorgeous 4-colored jacket by Dean Cornwell, and other **illustrations by H. R. Ballinger.** Cloth bound, size, 5¼x7⅝. Shipping weight, 1½ pounds.

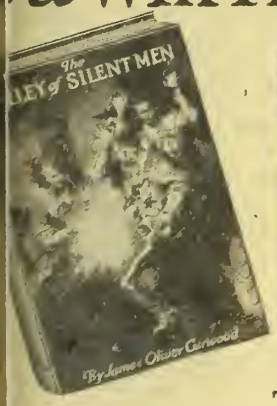
Find the Woman

By Arthur Somers Roche

A Novel of Youth and Mystery

$1.87



O. Henry said that 99 out of 100 Americans dreamed of living in New York. Here is the story of a beautiful country girl who brought her dream to life.

It is the story of Clancy Deane, a glorious country girl,—of New York, its romance and adventure,—of the knights and knaves of Manhattan. **A breathless novel,** an enchanting one, is **"Find the Woman."** It's as fascinating a mystery story as has ever been printed.

Magnificent colored jacket and **illustrations by Dean Cornwell.** Cloth bound, size, 5¼x7⅝. Shipping weight, 1½ pounds.

The Work of Curwood and Kyne

I have more faith in the novels of James Oliver Curwood and Peter B. Kyne than I have in those of any other American writers. These men have taken their success seriously. Each feels that he owes the best there is in him to the public which buys his books, and each is working more painstakingly every day. That's what makes fine writing, the natural gift of story telling plus the patience and the determination and the feeling of responsibility which inspires a writer to work for quality rather than quantity.

Ray Long

Editor-in-chief
International Magazine Co.

I know of no better way to explain the secret of Curwood's and of Kyne's great popularity than to show how one of the best known editors in the country feels regarding their work. Ray Long has an almost uncanny faculty of knowing what the majority of people like to read.

Only Some One Had Told Me

Written by H. D. Bailey
Professor of Biology in Muhlenburg College)

This book has been written to help parents give information to their sons and daughters about the dangers of venereal diseases. It contains all the facts about these dangers that they need to know, and the facts are so presented that not one of them will offend. Because of the great amount of harm which has been done through social diseases, and because very few people know the real truth about them, this has been the subject of Professor Bailey's lectures to the students.

Assisted by 158 Special Contributors
Many Special Features

57E2205—Bound in washable oil cloth. Size, 6x8¼ inches. 538 pages. Ship. wt., 2½ lbs. It is not based on any one authority alone, as so many cook books are, but unites the best ideas of many expert cooks. All the recipes are practical, and have been tried and tested. They are economical, having been selected to meet the requirements of the average home. Extravagant recipes, calling for excessive quantities of expensive materials, have been carefully eliminated. Many foreign recipes are included, and at the end of each chapter a few blank pages are inserted for the housewife's own memoranda.

One of the best features of this book, is its practical and simple arrangement. On the inside front and back covers, just where the busy housewife can find them the easiest, are tables of weights and measures, with the time required to cook various meats and dishes.

Full of valuable suggestions for the Busy Housewife. Contains over 1500 Recipes and Cooking Hints. Illustrated with 16 full page half-tone plates. **$1.68**

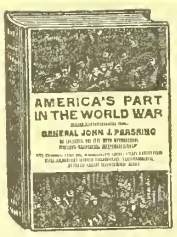
Memory Training Course

Train Your Mind and Get Out In Front

57 E 4649—You can do it with the help of this wonderful memory training course—the most complete and at the same time, the simplest.

Are you in a rut with no visible signs of improvement in your position, your business, your social standing? Do your friends refer to you as being successful or as being just an ordinary person? The difference between the intelligence or success of men lies largely in the fact that one has trained his mind to serve him instantly, accurately—the other has not.



You Started in Life Under No Handicap

No matter what your present position in the struggle for preferment among the world's workers, you must hear one fact in mind: you started even with the leader. If the leader has beaten you, it is because he made better use of his equipment than you did, and the biggest part of his equipment and yours is the mind you both started with.

27 Wonderful Books
A complete Course in Memory Training
By Marvin Dana, M. A., LL. B., PH.D., F. R. G. S.

This Memory Course helps any man or woman to become a master of his own mental powers and a leader in human achievements. So that the student may get every benefit and help, Dr. Dana has divided it into twenty-six lessons—each lesson in a separate booklet—and a book of instructions. A week's study of each booklet in turn will give any average student sufficient instruction. He needs, in addition, only to practice the exercises and to apply, in his own daily life, the various principles involved. Faithful study of these lessons will bring the reward of a perfected working memory, which is the beginning and the end of mental mastery. Each volume size, 4½x6¾ in.

Best Quality of Deep Rubber Type Outfits

Perfect in every detail. The illustrations show the actual size of type.

Useful for getting up from one to four lines of reading matter on short notice. These are ideal commercial outfits, perfectly molded of true alignment, and will print accurately. Put up in strong, cardboard box. Each Outfit has self inking pad and tweezers.

Note—Wherever we mention the quantity of letters before font of type we mean there are that many of the most frequently used capitals and small letters. The quantity of letters for the remainder of the alphabet is regulated by the importance of each letter. A 2A, 3a font of type has 2 capitals and 3 small letters, each, of those frequently used. Other letters in proportion.

SOLD ON 30 DAYS TRIAL

In Justice to Yourself Compare Our Machine Point for Point Before Buying—You will be convinced that the Reliance is a Superior Machine

The Reliance is a machine built not only for student and home use but one that is practical in business. It stands up under continued use. The removable basket, keyboard and type make it convenient to clean all parts. It is equipped with a standard keyboard. The removable basket is an advantage over other machines as we can furnish foreign language type basket and keyboard on special order. If interested in special basket write us and we will be glad of the opportunity to quote a price. No teaching is necessary, a boy, girl or grown up will be able to operate the Reliance Visible within a few days. Our instruction book gives all the information necessary.

The very light touch and the general ease with which the Reliance operates will win you as a friend of this superior machine. Once you own a machine such as the Reliance you will wonder how you got along without it.

We are so confident that you will agree with us that we make this 30 day free trial offer. Purchase the machine. If, after a trial for 30 days in your home, for any reason you are not pleased, you can return it and we will refund the purchase price including the shipping charges.

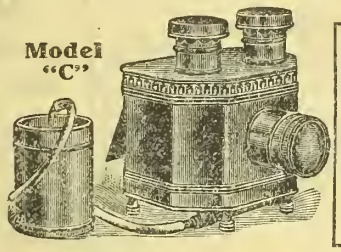
Educational Amusements

Reproduces Any Picture

Just as popular as the Talking Machine for home, parlor and auditorium amusement.



There are no views to buy or attachments to wear out. You furnish the pictures to be enlarged from your collection of post cards, photographs, or from books, papers, etc.

Any illustration or flat object (up to 5x9½ inches, depending on size of machine) may be thrown on the screen, enlarged and in all its own colors; not limited to post card size.

Any photograph or picture you have, any illustration you have from paper, magazine or catalog, cartoons, home drawn animals, such objects as butterflies, leaves, pressed flowers—in short, almost anything—may be shown. No glass slides necessary.

All electric post card projectors are fitted with lamps, for 104 to 112 volt circuits, either alternating or direct current.

Remington Rifle, Revolver and Pistol Metallic Cartridges

The importance of using dependable ammunition cannot be too strongly emphasized. If you are to have satisfactory results in your shooting, you must use the right ammunition. Cartridge making has become an exact chemical and mechanical science, and Remington metallic cartridges are the final result of the world's experience and study in the making of small arms ammunition. Every cartridge is perfect and chambers properly. Each style and size is correctly proportioned as to powder charge, weight, shape, size and composition of the bullet. Ammunition can be shipped by freight or express, but not by parcel post.

Ammunition cannot be shipped by parcel post.

We do not send cartridges C.O.D.

Metallic cartridges, loaded with smokeless powder are the same shape and size as regular black powder cartridges. Soft point bullets are provided with a metal patch on the point. When the bullet strikes, the patch of harder metal causes the lead bullets to expand in the animal tissue.

Shipping weights on Cartridges: 22-Caliber per 100, 7 to 20 ounces, 38-Caliber, per 100, 3 to 4½ pounds, 32-Caliber, per 100, 2 to 3 pounds, 44-Caliber, per 100, 4 to 5 pounds, 25-35 and larger sizes, per 100, 4 to 6 pounds.

All our seines and nets are full length, full depth, and full size. They are made of the best quality cotton twine and are woven in the best possible manner. Our perfect knot prevents the meshes from slipping. Complete with leads, floats and line. Ready for use, except hauling lines. Seines weigh about from 6 ounces to 1 pound to the running yard, the weight varying due to depth, size of mesh and number of twine used.

Do not put the net into the water until you are perfectly satisfied with it. After a seine or net has been wet we cannot take it back.

Meshes are sometimes measured stretched, but the sizes we give are for a square mesh. A seine mesh is diamond shaped and a 1-inch square mesh measures 1 inch on each of the four sides or 2 inches stretched. A 1½-inch mesh would measure 1½ inches on each side or 3 inches stretched.

Perfection Straight Seines or Drag Nets Straight from End to End

Made of best quality white cotton, soft laid twine. Hung on lines complete with leads and floats. Ready for use except brails and hauling lines. Size mesh is given for square mesh. These nets are straight from end to end, and do not taper. Sizes listed are carried in stock and can be shipped same day your order is received. Other sizes and lengths supplied promptly. Prices quoted on request.

Still-Hunter Duck Boat

A Good Boat for Fishing and Hunting

This boat was designed for small rivers, creeks and lakes. The favorite with sportsmen wherever used for an all-around boat for hunting, fishing and rowing. Its great stability makes it an excellent boat for shooting from in a standing position.

It draws very little water and is built strong and light. Has flat bottom of ¾-inch white pine, width 20 inches. Ribs are spaced every 4 inches, making a boat that is practically indestructible. The sides are of cedar, full ¾ inch thick, clinker construction. The ribs, coming around cockpit and deck beams are made of oak. Decks are cedar, covered with good grade cotton duck. Entire boat is painted three coats in dead grass color. **Shipped from Factory in Northern Wisconsin.** Allow 10 to 20 days for freight delivery. Not profitable to ship by express.

Each boat complete with two removable seats and one paddle.
